## **DETAILED ACTION**

### **CLAIMS PRESENTED**

Claims 36-38, 40-76 are presented.

### **CLAIM REJECTIONS**

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 36-38, 40-76 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims fail(s) to correspond in scope with that which applicant(s) regard as the invention can be found in the reply filed 12/28/2005. In that paper, applicant has stated that the claims are to cover inventions that are stated in the paper rather than actual claim language, and this statement indicates that the invention is different from what is defined in the claim(s) because the claim language (rather than paragraphs in Remarks section of the paper) is to control the meaning of the claims. For example, at page 10, specification is cited and intent to cover a vaguely stated subject matter is noted. This shows that the scope (with that which applicant(s) regard as the invention) is not same as that of the claims.

Because some of this issue could have been raised in a previous Office Action, this particular Office Action is made NON-FINAL.
